

Series 34

Description

LED navigation lights. The latest LED generation in an attractive and slim design. Totally maintenance-free. The series 34 is specially designed for sailing boats < 50 m / 164 ft. (Bicolor: < 20 m / < 65 ft.)

The navigation lights fulfil all requirements of the "International Regulations for Preventing Collision at Sea 1972 (COLREG)", published by the international Maritime Organization (IMO) and local rules.

The application is depending on the visibility requirements.
This series is available for all markets worldwide.
